Remarks:-

* Out of the four M.I.Vaccinators, only one is drawing a salary of 25/ only. Of the other 3 one has put in a service of about 16 years, another about 10 years, and the third about four years. They are ~~transferred~~ therefore recommended for Rs 25/ each (2nd grade). Hence the increase.

" Of the 3 Vydyasalas for which provision has not been made for 1928-29 viz., Ramanthapur and Kesgode are to be converted into new type of Dispensaries vide G.ONo.G.7769-73/Med. 24-27-8, dated 11th Jany.28. Hence the provision here is omitted.

As regards ~~the~~ Gangur the vydyasala there will have to be removed as an L.F.Dispensary is proposed to be located at Rudrapatna very near to Gangoor from next year. Hence the provision is omitted vide District Board resolution No.11 of 29th and 30th Octr.27 and 4 & 21st and 22nd Jany. 28.

• If these three Vydyasalas are given to this District in addition to the promised M.I.Dispenssaries detailed below, enough medical relief will be given to the rural areas of th District - Scale @ Rs. 20 is proposed.

◘ These two will have to be converted into M.I.Dispensaries for 1929-30 vide G.O.No.G.2236-53/Med. 49-25-96, dated 26th August 1927.

% These three are to be converted into L.F.Dispensaries as per resolutions of the District Board already noted.

Letter No. L. B. 399/27-28 date 23rd March 1928, from the Deputy Commissioner & President, District Malnad Improvement Committee, Kadur District, Chickmagalur, to the Sanitary Commissioner in Mysore, Bangalore

---

Adverting to your letter No. Per-11 dated 7-2-1928 requesting me to forward statements showing the provision required to be made under several heads in the Malnad Improvement Budget for 1928-29, I have the honour to forward herewith the marginally noted statements as approved by the Malmad Improvement Committee held on 7th March 1928 showing the particulars in respect of which necessary provision has to be made in the next year's Budget and to state that none of theitems detailed in the enclosed list admit of any further curtailments as only such of the items as are absolutely necessary have been included therein.

Water supply and Sanitation:- (Incomplete Works).

The small allotment of Rs. 3,000/- sanctioned for 1927-28 was not enough to meet even a small part of the requirements of the District and consequently several well works started under the scheme during the previous years could not be taken up for completion although the supply of good drinking water was absolutely necessary in several instances and so the amount applied therefor may be kindly allowed to stand.

New Works:- As for provision asked for new works, I may state that only the most urgent cases have been selected and that a majority of those items are those suggested in the Dewan's Tour Notes. It is accepted on all hands that a supply of good drinking water in almost all the villages in the Malnad has been a great disideratum and that nothing tangible can be done with any small allotments and therefore the full amount applied for requires to be retained.

Roads and Communications:-(New Roads)

Two of the three roads proposed to be opened and financed under the scheme, viz., Bhandigadi-Chavalmane Road and Hospet-Sakrepatna Road are already sanctioned and necessary amount required to be paid in respect of these two roads as the quota from the Malndd Improvement funds is embodied in the Statement. With regard to third, viz., Malalur Sanivarsanthe Road, it may be stated that it is also one of the several roads suggested in the Dewan's tour notes and in respect of which constant representation are being received. To open this road the District Board contributed a sum of Rs. 500/- during 26-27 while another sum of Rs. 1,000/- has been sanctioned to be utilized out of Malnad Improvement Funds during the current year, and this amount

amount is being worked out by the Public Works Department. Another Rs. 1,500/- is estimated to be required to complete the work and so a provision of Rs. 1,500/- has been included for this item.

Repairs to existing roads:- A very moderate sum of Rs, 1,500/- has been applied for the rough repairs and maintenance of those which were opened under the Malnad Improvement Scheme about 10 years back and since neglected for want of funds. The length of such roads is about 30 miles and many of them are ascertained to have been overgrown with Lantana and other shrubs. The question of repairs of Malnad Improvement roads was also one of the main items for consideration submitted by the people to the Dewan during the course of his tour in the District and therefore only a moderate sum, calculated at the modest estimate of Rs. 50/- per mile is included.

Vaccination:- Under vaccination establishment the addition of three more vaccinators preferably of the First Grade is proposed to meet the growing demands particularly in view of the fact that vaccination has been made compulsory in the malnad.

It may be stated that the number of Vaccinators sanctioned under the Malnad Improvement Scheme was till 1921 eight, when their number was reduced by three by way of retrenchment. The necessity to raise their number to the original scale viz., eight has been keenly felt particularly in view of the sporadic outbreaks of small pox in the Malna as also to the introduction of the compulsory vaccination. The area allotted to each of the Malnad Improvement Vaccinators at present is so extensive that it is not practicable to pay required attention to all villages assigned to each of them owing to their peculiar situation amidst jungles and hills though each of them is very sparsely populated.

For the foregoing reasons the strength of the Vaccinators demands to be increased.

Europe Medicines and Quinine:- The popularity and consequent increased demand for the supply of quinine tabloids cannot but be reiterated. The allotment made for the purchase of quinine for free distribution during 1927-28 was found to be most inadequate and it is therefore increased to Rs. 3,000/- although the

although the quantity obtainable out of this allotment may not fully meet the demand.

Bili Vaccine:- So highly recommended by the Senior Surgeon is also proposed to be tried with a small allotment of Rs. 1,000/- as a preventive measure particularly against the spread of Dysentery and Typhoid so common in Malnad.

As the demand for each of the several heads has been explained in the foregoing paras, I request that the sanction of Government may kindly be obtained for the full allotments asked for under each of the several items in the next year's Budget.

SANITARY COMMISSIONER

D. O. No. L. B. 399/27-28

Office of the President,
Kadur District Board,

Dated, Chickmagalur 24th Sept. *1928*.

Dear Mr. Ranga Rao,

The Malnad Improvement Budget Estimates of the Kadur District which were forwarded to you through the Sanitary Commissioner, with the Government of Mysore in March last have not yet been -- returned duly sanctioned.

As already three months have elapsed -- during the official year, and as the working season has also commenced, I request you to kindly obtain and communicate sanction of Government to the distribution of allotment under the Malnad Improvement -- Sceheme for the year at a very early date to enable me to fix up a definite programme of work within the sanctioned allotment in consultation with the Malnad Improvement Committee and the District Board wherever necessary.

Yours sincerely,

To

R. Ranga Rao, Esq., B.A., B.L.,
General Secretary to Government
of Mysore, BANGALORE.
